PRESS RELEASE

For immediate release – To CRIR Members & Partners

CORONAVIRUS (COVID-19)

POSTPONED: CRIR Scientific Congress, June 8 to 10, 2020

Montreal, March 19, 2020

Dear CRIR Members and Partners,

We have been closely following the recent developments in relation to the COVID-19 pandemic and are mindful of the seriousness of the current situation. In an effort to exercise maximal caution for the health and safety of those attending and those working at the conference, we have decided to postpone, until a later date, the CRIR Scientific Congress that was to be held on June 8-10.

Many of you have been preparing and submitting abstracts. Your work is not lost. Once we have a better idea of when the congress can take place, a new call for abstracts will be sent to all. At that point, you may either send again the abstract you have already prepared or submitted, or you can send a new one. All of you will have the opportunity to submit your very best work at that time.

We apologize for any disappointment or inconvenience this announcement may cause.

More favourable times will come, and we will then gather together to celebrate rehabilitation research and CRIR's 20th anniversary.

Please feel free to contact us if you have additional questions and please stay tuned by visiting the [CRIR website](#) for updates on the impact of COVID-19 on our research activities.

If you think you have symptoms of either cough, fever, or difficulty breathing, you should contact [Info-Santé 811](#).

- 30 -
