

Research Project: Youth, Young Adult Participation and Environment Measure (Y-PEM)

Are you interested in how young people participate at home, school, community, and in the workplace? If so, we would like your assistance!

We invite you to take part in a research project aimed at evaluating the ease of completion of a participation-based measure called the Youth and Young Adult Participation and Environment Measure (Y-PEM). We want to find out if the Y-PEM can capture your participation profile (all of the different activities that you engage in) and if its results are consistent and valid.

Who can participate?

- Youth and young adult between 12 and 30 years old and living with a physical disability
- Can read and understand English or French

What will you do?

- Complete a demographic questionnaire, the Y-PEM, and a short questionnaire to evaluate the ease of completion of the Y-PEM

Where will it be?

- In your preferred location, e.g. at home.

Compensatory indemnity will be given!
