

PRESS RELEASE

Launch: Participatory research - FAQ

Montreal, May 18, 2022 – Invitation to the launch: June 2 from 12:00 to 12:40.

The Scientific Direction of the **Centre for Interdisciplinary Research in Rehabilitation of Greater Montreal (CRIR)** is please to invite you to the launch of the "FAQ on participatory research with and for people with disabilities" project.

This project is the result of a collaboration between [CRIR](#), [Inclusive Society](#), [Participation sociale et ville inclusive](#), and [Unité de Soutien SSA-Québec](#).

As part of the [Semaine québécoise des personnes handicapées](#), which will take place from June 1 to 7, come and listen to the experts who participated in the project and discover the **18 short videos** that demonstrate the participatory approach to research and strategies to include all the stakeholders and make research efficient.

You have questions? We have answers!

► [Discover the video trailer here](#)

The project is:

- **16 experts** were mobilized to answer questions from the community and to share success stories, best practices, and tools for creating successful partnerships and projects.
- **18 videos** to inform and help teams who want to set up a participatory project with and for people with disabilities.
- **3 themes:** Participatory research, Partnership, Communication and results

Your presence is eagerly awaited!

► [Register for the launch event here](#): **June 2 from 12:00 to 12:40 | on Zoom**

► [Find out more](#)

Together, we go further!

We look forward to seeing you!

Note: The videos below are also available with an interpreter (*Quebec Sign Language – LSQ*) and a video transcription document.

About CRIR

The Centre for Interdisciplinary Research in Rehabilitation of Greater Montreal (CRIR) is a unique research center that is distinguished by the excellence, breadth and diversity of its research in rehabilitation, as well as through its interdisciplinary, intersectoral and knowledge mobilization initiatives. These initiatives have an important impact in the clinical, scientific, public and community sectors. CRIR provides an extraordinary environment for the training of new researchers, and is also a model of partnership and administrative synergy.

The team counts **95 researchers** divided into two research axes, **more than 153 clinician/health** members who collaborate on various research projects and **over 460 students**.

It is thanks to all these actors that CRIR has been one of the largest research centers in rehabilitation in Canada for 20 years!
