Philippe Archambault and Claudine Auger
- **Lecture: Artificial Intelligence in the support of research**
Prof. Maxime Sasseville
- **Break** ☕
- **Discover the CRIR**
Presentation of your research center by members of the student committee
- **Student Community General Assembly**
Discussion and feedback on activities to plan for the 2026–2027 academic year

Invited Speaker

Prof. Maxime Sasseville

Associate Professor,
Université Laval
Researcher, VITAM Research
Centre on Sustainable Health

His work focuses on the implementation of digital health interventions, the use of patient-reported data, and the responsible integration of artificial intelligence, including language models, into health systems, with particular attention to ethical, methodological, and data governance issues.
