Centre de recherche interdisciplinaire en réadaptation du Montréal métropolitain

CRIR NEW INITIATIVES PROGRAM – 2026-2027 Competition

Table : Evaluation criteria and weighting

Criteria **Note: Consideration of equity, diversity, inclusion, and accessibility (EDIA) issues is a cross-cutting criterion that should be assessed throughout the evaluation of the criteria below.**	Weighting
1. Originality of the idea and contribution to the advancement of knowledge; relevance to CRIR's mission and strategic objectives.	15 points
2. Rationale, link with clinical needs, objectives.	20 points
3. Methodological approach.	20 points
4. The project will foster collaboration and the sharing of expertise (multi-site, inter-axis and/or including external partnerships). Note: If this is not applicable or not relevant given the context, it is the quality of the justification that should be assessed.	10 points
5. Benefits to the rehabilitation community/other settings.	15 points
6. Feasibility	10 points
7. Knowledge mobilization and uptake activities, including the engagement of knowledge users.	10 points
Total	**100 points**
